Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Hollins Grundy Primary School
Number of pupils in school	209
Proportion (%) of pupil premium eligible pupils	12%
Academic year/years that our current pupil	2021/22
premium strategy plan covers (3 year plans are	2022/23
recommended)	2023/24
Date this statement was published	October 2023
Date on which it will be reviewed	November 2024
Statement authorised by	Governing Body
Pupil premium lead	Mr S. McCluskey
Governor / Trustee lead	

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£44 320
Recovery premium funding allocation this academic year	£4 170
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£48 490

Part A: Pupil premium strategy plan

Statement of intent

Principles

Hollins Grundy Primary School aims to provide children the opportunity to develop towards their full potential; academically, emotionally and socially:

- Providing the highest standard of education to enable children to acquire the skills, knowledge and concepts relevant to their future.
- Promoting an ethos of care, mutual respect and support, where effort is valued and success celebrated.
- Enabling children to become active, responsible and caring members of the school and wider community.

The school works towards these aims by:

- Promoting high quality learning and attainment.
- Providing a high quality learning expectations and environment.
- Valuing each other and ourselves.
- Working in partnership with parents and the community.

The principles outlined above apply equally to children who are disadvantaged and may require additional support in order to achieve expectations.

Rationale

28% of our disadvantaged children have an identified special need which is greater than the non-disadvantaged children (18%).

Analysis of data for Summer 2023 indicates that the school has succeeded in improving outcomes for some disadvantaged children across all three key stages, whilst others, with more complex needs make less progress. Data indicates that the attainment of children entitled to PPG is closely matched to their peers in the younger classes. There remains a gap for children in the later years of Key Stage 2, where attendance in the previous academic year has also been an issue.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Prior attainment of our disadvantaged children is low; 28% have an identified SEND need.
2	Attendance of disadvantaged children lags behind that of non- disadvantaged children by 1% (2022/23 academic year).
3	Many of our disadvantaged children display increased SEMH needs due to the social and financial disruption caused by the Covid-19 pandemic.
4	Many of our disadvantaged children have fewer opportunities to take part in a wide range of non-academic extra-curricular activities than their non-disadvantaged peers.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
To narrow the academic achievement gap between disadvantaged and non-disadvantaged learners.	Over time the attainment gap (RWrMa at the end of KS2) between disadvantaged and non-disadvantaged children reduces to zero.
To narrow the gap in attendance rates between disadvantaged and non-disadvantaged learners.	Attendance rates for disadvantaged children are within 1% of that of non-disadvantaged children.
To address the SEMH needs of all learners including disadvantaged learners	80% of children who have had a SEMH intervention have a reduced SDQ score when the intervention is complete.
To enable a greater number of disadvantaged children to participate in extra- curricular activites.	

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) this academic year to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £

Activity	Evidence that supports this approach	Challenge number(s) addressed

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £ 22 457.50

Activity	Evidence that supports this approach	Challenge number(s) addressed
Targeted group teaching by experienced members of the teaching staff for disadvantaged children whose attainment in English and maths is lower than their peers.	EEF Teaching & Learning Toolkit indicates that one to one tuition is moderate cost, high impact	1
This teaching will be targeted on children in key stage 1 and upper key stage 2.		

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 12,457.50

Activity	Evidence that supports this approach	Challenge number(s) addressed
----------	--------------------------------------	-------------------------------------

Time for the school PSA to monitor attendance and liaise with parents re. the importance of school attendance.	EEF Teaching & Learning Toolkit indicates that parental engagement is very low cost, moderate impact	2
SEMH interventions by trained members of staff.	EEF Teaching & Learning Toolkit indicates that metacognition and self-regulation intervention is very high impact for very low cost. Additionally, EEF Teaching & Learning Toolkit indicates that small group tuition is low cost, moderate impact. Diagnostic assessments are used to identify how best to support children.	ω
Funding to enable disadvantaged children to access extra- curricular activities.	Funding contributions to enable disadvantaged children to access residential activities. Targeting of disadvantaged children for access to extra-curricular sporting activity. Funding contributions to enable disadvantaged children to access extra-curricular musical tuition.	4

Total budgeted cost: £ 34 915

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2021 to 2022 academic year.

In summer 2023 disadvantaged children outperformed non-disadvantaged children at the end of the Foundation Stage as judged by the number of children achieving a Good Level of Development.

In summer 2023 disadvantaged children outperformed non-disadvantaged children at the end of Year 1 as judged by the number of children passing the Year 1 Phonic Check.

In summer 2023 disadvantaged children underperformed compared to nondisadvantaged children at the end of Key Stage 1 as judged by the number of children meeting the expected standard in Reading, Writing and Maths combined. When looked at separately disadvantaged children also underperformed.

In summer 2023, at the end of Key Stage 2, there was a reduced gap between the number of disadvantaged children achieving the expected standard in reading, writing and maths and the number of non-disadvantaged children. In reading, writing and maths separately there were also reduced gaps.

In the academic year 2021/22 the attendance of disadvantaged children was 1% lower than that of non-disadvantaged children.

Externally provided programmes

Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England
